#### REMARKS

The examiner's refusal to allow claims 61-64 as being drawn to a non-elected species is respectfully traversed.. Amended independent claim 61 includes all of the elements in allowed generic claim 51, which called for the "contact structure to be generally conical and with a generally obtuse included angle". Since independent claim 61 contains all of the limitations in allowed generic claim 51, claim 61 also should be allowable along with its dependent claims 62-64.

Respectfully submitted,

Edward L. Brown, Jr. (Reg. No. 20,224)
